Hitherfield Road - School Street

Lambeth introduced a School Street on Hitherfield Road which restricts vehicle movement at drop off and pick up times. The timed restrictions are set out to reduce road danger, improve air quality and increase active travel to school, particularly walking and cycling, by creating a safer and more pleasant environment outside the school. Since its inception, the School Street has operated with physical barriers to restrict vehicle access.

Vehicles already located in the street when the restrictions are in force will still be able to exit the closure without a permit. We ask that any driver using the restricted times does so slowly and with caution as children use the street differently during the restricted times.

Please note that emergency vehicles will still be able to enter the School Street at any time. Other motor vehicles, including those that are not registered to an address within the zone and vehicles driven by parents to drop off or pick up children at the school gates, will be restricted during these times.

Eligibility for School Blue Badge Holders. School Blue Badge Holders, including staff, parents and children are eligible for exemption. Blue badge holders can apply for an exemption online at <https://epermits.lambeth.gov.uk/> If they are unable to access the application online, please call 0207 926 9000.

Applications received will be processed within 10 working days. Lambeth encourage blue badge holders to apply as soon as possible to ensure they have a valid exemption and to avoid receiving a Penalty Charge Notice (PCN).

Is your child learning more than you think they are?

Following my letter to the parents/carers of children in Years 3-6 at the end of last term, I wanted to highlight the possibility that some of our children may be accessing inappropriate and sexualised content through their use of social media and gaming sites. I have already mentioned Youtube and Tiktok but have been made aware that this can also happen when children are using gaming sites such as Roblox where content created by any individual can be shared/accessed indiscriminately or Minecraft where children can interact with other people using the platform.

Here is a link for parents/carers from the NSPCC that you may find useful to support your children to engage with these online activities safely...

Safe gaming!
